

PETRON
PLUS™
FORMULA 7

**PETRON
 PLUS™
 FORMULA 7
 PREMIUM ALL-SEASON MULTI-PURPOSE
 DIESEL FUEL CONDITIONER w/Lubricity**

▶ **PART NO.'S: 20310-16oz, 20310-32oz, 20310-1g, 20310-5g & 20310-55g**

TECHNICAL DATA SHEET

Petron Plus™ Formula 7 Premium All-Season Multi-Purpose Diesel Fuel Concentrate w/Lubricity was especially formulated for vehicles that are subject to severe pump wear problems when using Ultra Low Sulfur Diesel (ULSD). It provides excellent injector detergency, increase Cetane number, and combines superior lubricity enhancement with low temperature operability, fuel stability and corrosion protection. It's also EPA Registered and will help pass EURO 5 Standards.

Petron Plus™ Formula 7 Premium All-Season Multi-Purpose Diesel Fuel Concentrate w/Lubricity will provide the following performance benefits: Superior lubricity enhancement and hence wear reduction for ultra low sulfur and other low lubricity diesel fuel, L10 Superior detergency for all vehicles irrespective of make, model and year, Remove deposits (clean-up) which can deteriorate fuel economy, Maintains injector cleanliness (keep-clean) which can extend time between engine preventive maintenance service interruptions, Reduce exhaust emissions, Improve thermal and storage stability, Restore stability to Cetane improved fuels, Passes Class 8 Truck Fuel Filter Plugging Test, Cetane improver - With up to 3 numbers (30 points) Cetane gain to improve combustion, resulting in better acceleration, power and torque and hence increase horse power, Excellent Cold Weather Protection - CFPP an Pour point reduction: *Reduces cold filter plug up to -20°F (28°C) depending on base fuel, *Reduces diesel pour point up to -49°F (-45°C) depending on base fuel, Excellent corrosion and rust protection, Contains No Alcohol—avoids corrosion and accelerated wear, Helps remove Water, Can be used with Biodiesel Fuel up to B20 Biodiesel Blend.

APPLICATIONS:

1. Ready for use in all fuels, including BioDiesel & ULSD diesel fuel.
2. For vehicles with fuel related problems.
3. Use year around.
4. All diesel vehicles: cars, pick-up to semi-trucks.

FEATURES:

1. Cleans engine deposits from fuel injectors and ring belt area.
2. Helps control deposits build-up. Will not create deposits on other important engine parts.
3. Helps restores Injectors Performance to like new condition.
4. Helps restores engine performance and power.
5. Helps increases fuel economy.
6. Helps improves driveability and reduces exhaust emissions.
7. Protects against rust and corrosion.
8. Helps smooth out rough idling.
9. Improved low temperature operability.
10. Contains no alcohols of any type.
11. Improves ignition quality of fuel using a cetane improver.
12. ULSD compliant -Contains less than 15 ppm sulfur.
13. It is EPA Registered and will help pass EURO 5.

BENEFITS:

1. Reduces maintenance costs.
2. Faster starting.
3. Reduce fuel consumption.
4. Helps reduce exhaust emissions.

TYPICAL SPECIFICATIONS:

PETRON PLUS™
FORMULA 7

PREMIUM ALL-SEASON MULTI-PURPOSE DIESEL FUEL CONDITIONER with LUBRICITY

Part No.	20310
Flash Point, °F, (°C)	>100 (>37.7)
lb/US gal.,	7.80
Specific Gravity,.	0.93
Color,	Dark Amber Liquid

TREATMENT

Container Size

Treats Gallons of Diesel Fuel

16 oz.,	75 gallons
32 oz.,	150 gallons
1 gallon,	600 gallons
5 gallon,	3,000 gallons
54 gallon,	32,400 gallons
275 gallon Tote,	165,000 gallons
330 gallon Tote,	198,000 gallons

DIRECTIONS

Add to Diesel fuel tank at a treatment rate of 1-gallon be 600 gallons of fuel to obtain the benefits listed above. **DO NOT ADD TO EMPTY FUEL TANK.** Make sure Diesel fuel tank has at least five to ten (5-10) gallons of diesel fuel in tank, then add 20310 to the fuel tank (this is to ensure good mixing in fuel-tank) at proper treat ratio then fill diesel fuel tank to the full level. Dispose of empty container properly. Repeat treatment every time you fill diesel fuel tanks to the full level with 20310.

For even greater performance use **Petron Plus Formula 7 Premium Multi-Purpose Gasoline & Diesel Fuel Conditioner (Part No. 20300)** at the same time you use 20310 in diesel fuel.

For best results add 20310 first and then add 20300 to fuel tank and them fill-up.

One treatment should provide noticeable improvement in the operation of any diesel engine. Some deposits are more difficult to clean, particularly those on intake valves and combustion chambers. In these cases the second treatment will be beneficial and each treatment after that. Once this product has been used, engine deposits can be kept to a minimum with regular use.
